DETAILED ACTION

1. This office action is in response to Response to Election/Restriction requirement filed April 7th, 2006.
2. Claims 1-36 are pending.
3. Claims 8-11 and 22-36 are withdrawn from consideration.
4. Claims 1-7 and 12-21 are rejected.
5. Note: In the response to Election/Restriction requirement filed April 7th, 2006, applicant referred to claim 37, however the record shows that no claim 37 exists.

Drawings

6. The subject matter of this application admits of illustration by a drawing to facilitate understanding of the invention. Applicant is required to furnish a drawing under 37 CFR 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). The "brief description of the drawings" and "detailed description of the preferred embodiments" sections describe figures 4, 6 and 7; however, the figures are not present.

Double Patenting

7. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to

identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

8. Claims 1-7 of the present application are identical to claims 1-7 of US Patent 6396822 B1. Claims 12-21 of the present application are identical to claim 8-17 of US Patent 6396822 B1.
